

Meet Registered Dietitian **Kellsey O'Donnell, MS, RD, LDN**

In 2016, I received my Master's Degree in Human Nutrition from Drexel University. I completed my Dietetic Internship at The Ohio State University, where my focus was in the field of Sports Nutrition, but also completed rotations in the areas of clinical, community, and food service nutrition. Prior to going back to graduate school, I received a Bachelor's Degree in Kinesiology from James Madison University.

I began working with Aramark this past May 2017, and currently serve as the Campus Dietitian at Drexel University. I am also proud to act as the Campus Dietitian at West Chester University twice monthly and serve as the Health and Wellness Champion for the Mid-Atlantic region.

Outside of my work as a Dietitian, I enjoy running, biking, and being outdoors. I also am very interested in sports and enjoy following collegiate and professional events.
